

NOT ALL COVER MEASURES UP

Many family businesses think they're covered. A quick gap analysis reveals where your insurance protects you... and where it doesn't.

As a family business, you face increasing challenges. Having the right protection in place isn't a luxury. It's essential.

We review your current policy, providing insights tailored to your strategic goals. It's quick. Obligation-free. And it gives your family business the reassurance and clarity it deserves.

Looking at key areas of your insurance – including policy wordings, limits, deductibles and premiums – we do everything in our power to ensure you're covered for all you should be. And getting the best deal for your needs.

See exactly where your insurance can improve. But more importantly as a proud partner of FBUK we can offer our gap analysis service complementary so you get the insights that drive better outcomes.

How it works

All we need is:

1. Your current policy schedules and wordings
2. Your latest renewal report
3. Your claims history (last five years)
4. Any risk management or improvement work you've done (internally or through an external party)

We understand if confidentiality's important to you. And we're more than happy to use an NDA.
